The News la Brief.

A strike among the mechanics on the Michigan Southern R. R. at Laport and Adrian, for the present prevents the running of the usual trains on that Road. They refuse to let any other than mail cars run.-The cause of the strike is the inability or

refusal of the Company to pay back wages. A rather duller feeling was the general report in the produce markets yesterday, as far as we heard. At New York flour declined 10c. and wheat there was dull. Our own market was not so active, but prices were steady, and could hardly be called lower. Weather continues dry, with a cool western wind, and great abundance of dust hereabouts.

The Press & Tribune adds:

But when we take into account the fact that last year at this time, we had a large majority of the crop of 1857 on hand, and that it kept coming in more or less till the close of the season; while this year, we have but very little of the old crop on hand, and that our shipments of wheat during the last half of August were almost exclusively of the crop of 1859—we find that the loss to the West by the failure of the crops of 1858 is much greater than the above figures indicate.

Many of them bareforded, without provisions and without money. A committee of Milanese was instantly formed and large sums collected. They all intend to re-enlist under Casso. It would indeed be shameful if Lombardy left them to want, but this will not be the case. Nevertheless the conduct of Lamaramora is universally blamed. MR PERSIDENT AND GENTLEMEN OF THE CONVENTION.—I am under the disagracable necessity of informing the Convention that I respectfully decline the nonlimation for Lt. Governor. I thank you for the complimentary unanimity with which you offer me the honorable distinction, and it is hardly necessary for me to add that in refusing to accept it I am actuated by no feeling of a personal nature. There can hardly be a misunderstanding in this respect between the Republicans of Wissonsin and myself.—Nor will the gentl-man whom you have honored with the nomination for the governorship, misunderstand it. HON, ABBAM LINCOLN AT OUR STATE FAIR. -The Madison Journal is gratified, as every one else will be, to learn form Mr. Powers Secretary of the State Agricultural Society, that the Hon. ABRAM LINCOLN, of Illinois. has finally accepted the invitation of the Society, and will deliver the annual address at the State Fair in this city. This alone, as the Journal remarks, will be sufficient inducement for persons to come from all por-

The great event which now wholly takes up public attention is the sudden and unexpected demise of Her Majesty the Queen Consort, Dona Estephania, who died on the 17th inst., the day after completing her twenty-second year. She was only married founteen months ago to His Majesty Bon Pedro, who has felt her loss very severely, as they lived very happily togsther, and were much respected and beloved by all purties.—
The Queen received a sun-stroke while accompanying the King on some experiments with a newly invented rifled cannon, and never recovered afterwards. Her funeral took place on the 21st, with much pomp and state. All the military and public authorities accompanied the procession in their carriages, from the Palace of Necessidades to the Cathedral Church of St. Vincents, and deputations from all the public associations, and the commercial body, took rank in the procession, on foot, hearing lighted wax torches in their hands. Among those took a prominent part were all the foreign merchants, principally English, with their Vice Consul at the head.

At the Cathedral of St. Vincents, the din-BROTHER KELLOGG, of the Baraboo Republic called upon us, yesterday. His good looking phiz seemed to be unusually luminous with inward satisfaction. We were surprised. He was altogether too happy—too serenely joyful for an editor. What was the occasion of it? We supposed he had collected a bill while in town—but on questioning— 'No," and the no was said so confoundedly gracious, too, so complacent, and with such an implied contempt of bills that we felt 'mad." We wanted to spoil his equanimity, and make him somewhat miserable like other editors: but it was of no avail. Will some of our country exchanges tell us what is the At the Cathedral of St. Vincents, the dipmatter with Kelloge?

lomatic corps, in full dress, attended, and had seats reserved for them. When the body arrived at the church, the coffin was taken charge of (an old established privilege) by the Brotherhood of Mercy, and carried on their shoulders to the middle of the church, where some prayers were registed by them. THE LAKE COUNTY CITIZEN, of Waukegan. Ill., throws a little light on the whereabouts of the chivalrous doctor we had the pleasure of showing up a few days since: their shoulders to the middle of the church, where some prayers were recited by them.— This brotherhood was established two centuries ago, for supplying gratuitous burial to the poor, and having the privilege of first carrying the bodies of the sovereigns to the church. The coffin was then taken charge of by the high dignitaries of the church, and the pompous funeral service was chanted with very fine music.

All the troops in town formed lines on either side of the road and brought no the

ether side of the road, and brought up the procession, and when services was over (about 9 o'clock P. M.) fired three general volleys. From the day of the Queen's death, the 17th, to the day of her burial, the 21st, our ears were stunned with the discharge, every five minutes, day and night, of cannon from all the forts and the slives in tarbor. OLD LAND-MARKS.—One of the most conspicuous ornaments our city can boast, is the row of ancient telegraph poles running down East Water street to Walker's Point bridge. To the observer standing anywhere ders without number." What with the powder thus burned, and all the other concomitant expenses, it is calculated that the burned expenses will not fall far short of some \$50,000—rather a large sum for an already exhausted treasury, such as we have here. near Van Corr's, the effect is very fine. We suggest to the city authorities the propriety of having the said poles boxed in order to preserve them. We notice that the boys have Muary, a Hibernian, who, it is asserted by whittled several of them severely. Let not his friends, "weighs forty stone, and forty these ancient sticks be wantonly destroyed because the city has no more use for them.

THE AURORA.—Friday morning, between the hours of 1 and 2, the same beautiful phenomenon which elicited so much wonder last Sunday night, made the heavens resplendant. We clip the following in relation thereto from the N. Y. Express:

A correspondent in Boston anggests, as solution of the phenomenon, that there may have been at the time three different currents one above the other, forming a sort of galvan to pile, each different stratum or current o air having different qualities, which, when passing each other in different relative pro-portions, may have produced the different colors with which the skies were radiant.— No known cause could produce such celerity of motion, unless it be galvanism and no electricity.

Six Lunatics Burned.

BATH, N. T., Aug. 28.

Last night about haif-past 1 o'clock a fire broke out in a building adjoining the Steuben county Poor House, occupied by the deranged and raving members of that Institution.—
The building was destroyed, and six of its occupants were roasted alive. No one knows what was the origin of the fire, as the keeper had locked the inmates up at the usual hour and the building was wrapped in flames lefore the alarm was given. There was careely time to break open the doors and secure the nearest victims from the flames, all of whom were badly burned. The dead are mostly old men. mostly old men.

TESTIMONIAL. MESSES. J. BURNETT & Co.—I cannot reture to state the salutary effect in my own aggravated case, of your excellent Hair Oi-(Coconine.) For many months my base her. For many months my hair has been failing off, until I was fearful of losing it entirely. The skin upon my head become gradually more and more inflamed, so that I could not touch it without pain. This irritated condition I attributed to the use of various advertised hair westes, which I have since been told contain camphene spirit.

By the advice of my physician, to whom you had shown your process of purifying the Oil, I commenced its use the last week in June. The first application allayed the itching and irritation, in three or

tion altayed the itching and irritation, in three or four days the reduces and tenderness disappearedthe hair ceased to fall, and I have now a thickgrowth of new hair 1 trust that others, similarly afflicted, will be induced to try the same remedy.

Yours, very truly,

THE MOSQUITO HUNT.

Not a sound was heard but a terrible hum As around the channer we hurried, In search of the mosquito whose trampet and drum Our delectable slumbers had worried. We sought it darkly, at dead of night, Our coveriet carefully turning By the traggling monbeam's misty light, And our candle dimly burning.

No useless garment confined our breast, But in simple night-dress and slippers, We wandered about like spirits distressed, Or the sails of piratical skippers. Short and few were the words we let fall, Lest the sound should disturb the mesquito, but we stead satly gazed on they white washed wall, And thought how we had been sir, on:

But half of an hour scenned to clapse. Ere we met with the wretch that had bit u.s., And raising our boots gave some terrible slaps, And made the mosquito quierus.

Quickly and gladly we turned from the dead, And left him all smashed and gory; We bow out the candle and popped into bed, Determined to tell you the story.

The Professor on Religion and Politics. The September number of the Atlantic Monthly, contains an unusually good letter from the "Professor of the Breakfast Table," one portion of which treats of religion and politics. It is a little satirical, however, and

of new hair I trust that others, similarly addicted, will be induced to try the same remedy.

A single application renders the hair, (no matter how stiff and dry.) soft and glossy for several days. It is conceded by all who have used it to be the ball and designed if the Dessing in the World.

Ji is conceded to all who have used it to be the ball and designed. This Dessing in the World. pleases. Without his neighbor's interferance. If he choors sto vote for the Devil, that is his lookout; perhaps he thinks the Devil is hetter, than the other candidates, and I don't doubt he's often right, sir! Just so a man's soul has a vote in the spiritual community; and it doesn't do, Sir, or it won't do long, to call him "syhismatic" and "heretie," and those other wicked names that the old murderous lumnistics have before the his class.

all infilmation—will allay all pain, and is sure to respect to the plate the howels. Depend upon it, mothers, it will give restroyourselves, and relited and nealth to your locants. Perfectly safe in all cases.

This valuable proparation is the prescription of one of the most experimend and skillful Female Physicians in New England, and has been used with never failing success in millions of cases.

We believe it is the best and awarst remedy in the world will be good in the face of all men, for just so much of His "inspiration" as "giveth him understanding."

If and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of bottles are sold every year in the United States. It is an old and well tried remedy.

Swearing to intended, always bring on an English character for the purpose. Swearing is a remarkably English fishing, practiced chiefly by the lower classes of the control of ably English Inshion, practiced chiefly by the lower classes of people who speak that language. The English sailors at Canton acquired a fame for it among the Chinese.— A Persian in England, hearing a man frequently using the name of God in his conversation supposed that he must be a very religious man, and accordingly approached him with reverence, and taking off his turban, with a profound obcisance, begged an interest in his frequent prayers.

BAD COLD—As soon asy on find you have a Cough or Sore Throat, or experience any difficulty in breathing, check the symptoma immediately. It allowed to run on, they will entait more serious difficult ies upon you. A dose of Kadway's Renovating Resolvent, followed with three or four Regulators, will immediately check and cure a recent cold: and the continued use of the R. R. R. Elothing.

There is considerable swearing that is of a diluted sort, as one might say, a kind of "arf and arf." This is 'prentice work, learning how, just to get the tongue and ear used to the terms. These minesd on the answer the same purpose that "thin potations." as Falstaff speaks, do to one who is learning to be a drunkard. And I advise everybody to avoid this half way swearing, just as the sober man does moderate drinking.

A habit? Yes, a bad and foolish one.—
Swearers, when the habits is formed, are not aware how often they utter profane words.

aware how often they utter profine words. A gentleman once, as a matter of curiosity, and perhaps with some measure of benerolence, invited a number of friends to dine with him, and had a short-hand writer scored in the room to take down cover results. that they uttered. He afterwards read it to them, and they agreed that it was more like the talk of fiends than of men. A man that swears so often as not to notice it, has put himself into a terrible condition. A thorough bred swearer will down himself are see himself into a terrible condition. A thorough bred swearer will damn himself, say fifty times a day, Sundays not excepted, for he is sure to be one of those that "go it" on that day; that makes 18,000 times a year. That seems to me to be laying it on rather heavy. Which, now, looks most reasonable, the habit of a poor, simple creature that damus himself 18,600 times a year or the word of that kind Saviour, who says "swear not at all?" Cured? Well I'll tell you. But it is not easy to cure, because, us the doctors, say, the system don't act readily when it has been morbid or torpid for a long time. I offer two prescriptions:

1. The celebrated and months.

The celebrated and useful Dr. Baker, 1. The celebrated and useful Dr. Baker, of Tennesses, cured a number of swearers by telling a short story, interspersed with the expression "pot-hooks and trammels" about as plentifully as they had mixed up profune oaths in their stories and conversation. It made as good sense and good grammar, and added as much to the force of the story. If none as greater, suppose you take some you are a swearer, suppose you take some word, easy to remember, say the celebrated Russian name, Blomanozoff, and put that into your conversation where you have been accustomed to put in oaths. If this don't

2. Prescription second. Remember that 2. Prescription secord. Remember that swearing is praying. The good pray that God would bless them; swearers pray that God would curse them. Some pray that eighteen thousand times a year. I have seen a little article called the Swearer's Prayer.—Go to the Tract Depository and get it for curiosity. It is worth reading, and only four pages. But it will make you creep with goose flesh to read what dreadful prayers the swearer puts up. I think it will cure the worst oase of this evil disease.—Pittsburgh Despatch.
